SUMMARY

Motivated professional with a strong background in Full Stack Development and self-taught technical expertise. Proven ability to learn quickly, solve problems efficiently, and utilize tools like Microsoft 365 and Azure to streamline processes. Experienced in customer service and technical support through various roles, with a passion for helping users resolve their IT issues and improving system functionality.

EXPERIENCE

Cloud Engineer / Backend Developer

Axé Engineering

07/2023 - 01/2024

- Engineered an API-based scraper for SAM.gov using Flask, deployed on Azure for scalable cloud operations. Implemented CI/CD pipelines for automated testing and deployment, and developed ETL processes to streamline data extraction, transformation, and integration for business intelligence purposes.
- Automated workflows in Microsoft 365 using Microsoft Graph API and Azure Entra, improving data accessibility.
- Developed a meeting minutes summarization tool using OpenAI GPT-4 API and Python OCR packages, integrated with Microsoft Graph API to automate data retrieval and streamline document processing within Microsoft 365 environments.
- Implemented communication strategies with Miro and Figma, enhancing project transparency and client engagement.
- Established DevOps practices using Azure DevOps, improving code management and team collaboration.

Licensed Insurance Agent

Access Insurance Services, Inc

12/2016

- Assisted 100+ clients monthly with coverage and claim inquiries, enhancing customer satisfaction by 30%.
- Generated quotes and bound policies, adhering to underwriting guidelines.
- Executed marketing campaigns, enhancing client base visibility.

KEY ACCOMPLISHMENTS

Fulfilled all obligations of the backend developer contract at Axé Engineering

Delivering solutions that met the specified requirements and successfully achieved the project's goals within the agreed timeline.

Developed and deployed an NFT landing page (www.sacred-genesis.com) which serves as a portal to my OpenSea account, enhancing visibility and sales of my NFT collections.

The site showcases my proficiency in frontend development with React and Material UI.

EDUCATION

Bachelor of Science in Sociology

California State University, Northridge

General Education

Rio Hondo College
